TO WHOMSOEVER IT MAY CONCERNED

MESSAGE

I applaud the Patheya Foundation for their excellent work in bringing Second Education to the attention of the public. While our educational institutions do a brilliant job in many areas of human learning, there is one area which has been neglected. This is the area of inner growth, inner transformation and Self-knowledge. It is precisely this investigation that we call Second Education.

In truth, the Second Education initiative does great honour to the Indian tradition, for it is in India that this form of inquiry and education has been brought to perfect development. India, with its rich philosophical traditions and its many sages, yogis and enlightened beings, has always been and will always be the epicentre of Second Education. Therefore, it can be said that by bringing our attention to this area of inquiry, the Patheya Foundation does great honour to Mother India.

In the modern world in which technology and science have reached undreamt of heights, it is very important that we find time to go back to our roots and discover the laws of the inner world.

BATU is honoured and feels privileged to be a part of this journey of transforming the lives of our Students

(COL.DR. KARBHARI V. KALE)
VICE-CHANCELLOR
